Description

The pre-fabricated cable set enables you to simply connect an AC inverter 1000 to your vehicles battery. The ends of the cables are already provided with cable lugs on one end. The cable lugs necessary for connecting to the fuse holder after the adjustment of the cable lengths, as well as a 150 A safety fuse are included in delivery.

The cable length of the positive and negative cables (35 mm²) are each ca. 2.5 m, and the PE line (10 mm²) ca. 1 m.
