Description

This LED warning beacon is suitable for use with plug socket type A Ø 24 mm according to DIN 72591. The light can therefore be simply plugged into a fixed base on the vehicle or a telescopic mast when required. The yellow flashing light is used to warn against hazards (see also § 38 of the German Road Traffic Regulations StVO). The light can be operated with an operating voltage of 12-24 V DC. It complies with ECE R65 and ECE R10, and is extremely durable thanks to the LED technology used.
