slot divider 309x62 for metal case WM 320/321

Material no.: 5267641 | Matchcode: TB WM 320/309 | EAN code: 4014599267641

Description

The slot divider 309x62 mm serves to sub-divide the metal case WM 320 and 321 across the width.

The slot divider can be simply deployed in the included serial production guide rail on the inside of the metal case WM.

The slot divider has recesses in which you can insert plastic adapters for dividers 154x62 mm (Ref. No. 5267603). In combination with the dividers you achieve an additional division in the depth.

The metal case WM 321 comes equipped with two slot dividers 309x62. It goes without saying that you can further sub-divide across the width with extra slot dividers.

The compartments provide for organisation and clear arrangement within the metal cases WM 320 and 321.
