Description

The SR-BOXX 24-8 XL is the ideal storage option for small parts of all kinds. The functionality of the SR-BOXXes is unique in van racking systems. The option of integrating them both on top of and underneath shelves in the vehicle interior means that the available space is used to its full potential. The pull-out function allows convenient access to the contents at all times. Lift slightly to completely remove the BOXX from the van racking system.

The optionally available transparent lid SR-BOXX 24 XL closes the SR-BOXX dust-tight, and protects the contents from dirt.

For ideal workplace organisation, the SR-BOXXes can be labelled with mySortimo labels. Combined with the Sortimo colour code, time spent searching for components is minimised and refilling is easier. An SR label clip is required if the label is used.

The interior space of the SR-BOXX 24-8 XL can be partitioned across the width using up to two dividers 04-8 XL.
