Restraint pole storage holder set for 2 restraint poles

Material no.: 1000001356 | Matchcode: ZSPALU AH S | EAN code: 4045294219246

Description

You can stow your restraint poles in a space-saving way in the loading space using the restraint pole storage holder when you no longer require them for load securing; but you still have them on hand for any eventuality. Thanks to the generous hole pattern on the holder they can be placed individually in the loading space. It is also possible to screw them on to the ProSafe lashing rails using the ProSafe screw fitting M6x20 (article no. 6000003618). The restraint pole holder accommodates two restraint poles and allows you to utilise the loading space completely when transporting large cargo by stowing the restraint poles securely in a space saving way.

The restraint pole set comprises two holders and takes two restraint poles.
