Description

The ProClick Starter Set tool tray is the perfect entry into the ProClick and L-BOXX ecosystems.

The connection to the ProClick tool bags is achieved, on the one hand, by the six integrated interfaces on the ends, and, on the other hand, via three strip loops on the front, onto which the ProClick Holder can be fixed. The sturdy plastic base protects not only the tray and its contents from impacts and dirt, but also allows it to click onto any L-BOXX using the integrated connecting clamp. This allows you to transport the tool tray, together with L-BOXXes, from your vehicle to the site in a single trip. It goes without saying that the tray integrates seamlessly in every van racking from Sortimo. This coupling also permits the supplied tool trough to be incorporated, thus offering additional stowage space under the tool tray. The padded metal carrying handle and shoulder strap also permit comfortable carrying, even with the maximum load of 24 kg.

It has a large stowage facility for tools and consumables, which is accessible and easily viewed from above. bags and loops inside and on the outside contribute to an improved overview and order. The zipped pocket on the front of the tray also provides a location for your hacksaw, and your spirit level is stored on the top using Velcro strips.

The set consists of

- 1 x ProClick tool tray M
- 1 x ProClick tool trough
- 2 x ProClick Holders
- 1 x ProClick Nail Bag M
- 1 x M 14 ProClick tool bag
- 1 x ProClick Battery Holder
